

Piggyback

For sheer flexibility, operational time saving and brand impact, Piggyback labelling is a technology hard to match. The Avery Dennison Piggyback range enables a whole spectrum of applications, from a simple shipping label through to highly decorative promotional features.

Piggyback labels are multi-layer constructions featuring one self-adhesive label on top of another. The top label can be released and can be reapplied elsewhere, while the bottom label is stationary, remaining affixed to the original surface. Dynamic and versatile, piggyback labels can be created in constructions that adhere to paper, plastics, cardboard or metals, and standard products are compatible with using all conventional printing techniques.

Key features

- Multi-layer constructions with two adhesive layers and two release liners
- Easy automatic dispensing
- Wide variety of face materials and adhesives
- Combinations of permanent and/or removable adhesives available

Application areas

- Shipping and tracking
- Inventory management
- Promotional labels (coupons)
- Administration
- Healthcare
