

Wine Service Programs 2021

When seeking brand differentiation, unique, pressure-sensitive facestock materials can be the difference between your brand remaining on the shelf or being enjoyed by consumers.

For new projects on unique materials, low volume rolls and custom widths are often crucial in helping manage inventory and cost. That's why we've introduced the new EXACT and Ready Width services for several premium products in our Wine & Spirits portfolio, like the Black Collection and the Sensorial Range.

The Ready Width service program allows you to purchase just one roll at a standard width and length. Our EXACT service allows you to order the exact roll width at a predefined length. This makes it easier for your business to kick-start smaller projects, especially for premium products like our Sensorial Range.

Use Avery Dennison pressure-sensitive wine label materials and flexible service programs to your advantage.

Need your stock in a hurry?

Ask about our new Express Indent service, a fixed rate 10 day air freight program designed to get you new materials faster!

Product information – Ready Width™

Code	Description	MOQ (m ²)	Width (mm)	Length (m)	Location
Coated Papers					
• F10820.1525	Cast Gloss Elite FSC S2030 BG40WH N	500	200, 225, 250, 275, 300, 330	500	AUS
