Materials For Water-Based Inkjet Printing

Labels + Packaging Product Guide Europe 2020

Materials For Water-Based Inkjet Printing

Dozens of options, optimized for excellence.

For many businesses, printing labels on a water-based inkjet printer is a smart move. Labels can be printed on demand, in shorter runs, with a relatively low capital investment. The key to consistently great-looking labels is to use materials already optimized for the water-based inkjet process. Our comprehensive portfolio of pre-optimized materials lets you choose from an exceptionally broad range of materials that are perfect for segments as diverse as food, home and personal care, beer and beverage, and more.

Consistently high print quality

Our quick-drying materials are purpose-engineered to provide outstanding printability on waterbased inkjet printers, run after run.

Ready for pigment. Ready for dye Materials are qualified for both dyeand pigment-based inks.

Get what you need, when you need it

Our water-based inkjet materials are available in low minimum-order quantities, with quick turnaround and fast delivery.

Choose from a variety of finishes Bring brand identity to life with gloss, matt, semi-gloss, metallized, and more.

Key Features

- One of the industry's largest selections of materials
- Excellent print quality with both dye- and pigment- based inks
- Consultation with our technical experts to help you choose the the best material for your application
- Custom made solutions with special adhesives and liners

Applications

Food and beverages/Home and personal care/ Chemicals/Reclosure and removable/Logistics and transportation
