

Tamper-evident labelling solutions

Drug counterfeiting is a major global problem. It compromises patient safety due to product manipulation or substitution, and manufacturers can experience damage to their brand image, sales and revenue.

Tamper-evident and void labels are the most affordable and popular solutions for brand owners who want to protect their products and comply with European Union Directive 2011/62/EU requirements. Avery Dennison offers a broad portfolio of anti-tamper and anti-counterfeiting pharmaceutical labelling solutions to reduce the risk of packaging falsification. Options include destructible labels, box damage films and void labels.

Ultimately, the right label technology depends on precise application requirements. Avery Dennison offers a broad portfolio and the in-depth technical support needed to create dependable, compliant and cost-effective solutions in the pharma segment. Technical sales representatives can help you to solve your specific challenge and deliver a functional and convenient packaging solution.

Application areas

- Prescription medicines
- Brand protection

Key features

- A broad anti-tamper and anti-counterfeiting portfolio
- Supports compliance with EU Directive 2011/62/EU, article 54(o)
- Protects patient safety and brand reputations
- Full technical support for 'layered' custom solutions
- Basic features through to high-end technologies
