

On-the-go consumers are demanding more convenient, easy-to-use functional packaging; Avery Dennison's Select Solutions Reclosure Portfolio has been designed to deliver just that. Our innovative packaging solutions meet various application parameters from dry to high moisture, providing the kind of innovative, cost-effective alternatives to zippers and hard case reclose packaging brand owners are seeking.

Reclose labels are designed for the easy opening and/or multiple open-close cycling of flexible packaging. They provide an economical method of repeated pack sealing – combined with branding – in one label.

# Select Solutions™ Reclosure Portfolio

Cost-effective, user-friendly alternatives combine convenience with branding.

- Wet applications, such as wet wipes, include water, scents, oils and chemicals within the saturating fluid that come in direct contact with the adhesive. Wet applications can also include packages containing food (such as deli meats), water or oils.
- Dry applications include such products as paper tissues or food, items like rice, pasta or coffee.

Our portfolio of film facestocks and reclose adhesives has been specifically designed to meet wet and dry applications. Able to deliver high-quality graphics, these facestocks and adhesives also provide increased operational efficiency as well as excellent reclose functionality.
